

2005 Data Summary Report

July 2006

Grasse River Study Area
Massena, New York

ALCOA

Alcoa Inc.
Massena, New York

TABLE OF CONTENTS

SECTION 1 INTRODUCTION.....	1-1
SECTION 2 2005 SRS PROGRAM	2-1
2.1 ROUTINE WATER COLUMN MONITORING	2-1
2.1.1 Collection Summary	2-1
2.1.2 Results.....	2-3
2.1.2.1 River Flow and Precipitation	2-3
2.1.2.2 Water Quality.....	2-4
2.1.2.3 PCBs	2-5
2.1.2.4 Comparison to Historic Data	2-7
2.2 RESIDENT FISH TREND MONITORING SURVEY	2-8
2.2.1 Collection Summary	2-8
2.2.2 Results.....	2-9
2.2.2.1 PCB Results	2-9
2.2.2.2 Comparison to Historic Data	2-11
SECTION 3 2005 FOCUSED STUDY	3-1
3.1 TSS MONITORING DURING SPRING HIGH FLOW/ICE BREAKUP.....	3-1
3.1.1 Collection Summary	3-1
3.1.2 Results.....	3-1
3.1.2.1 Stage Height and Flow Data	3-1
3.1.2.2 Monitoring Results.....	3-2
3.1.2.3 Comparison to Historic Data	3-3
SECTION 4 QUALITY ASSURANCE/QUALITY CONTROL	4-1
4.1 INTRODUCTION.....	4-1
4.2 QA/QC PROCEDURES.....	4-1
4.3 RESULTS OF QA/QC ANALYSES	4-3
4.3.1 Water Column.....	4-3
4.3.2 Resident Fish.....	4-5
4.4 SUMMARY	4-6
SECTION 5 REFERENCES.....	5-1

Tables

- Table 1-1. 2005 data collection summary.
- Table 2-1. Summary of 2005 SRS water column monitoring activities.
- Table 2-2. 2005 SRS water column monitoring activities - PCB results.
- Table 2-3. 2005 SRS water column monitoring activities – total suspended solids results.
- Table 2-4. Number of samples collected/number of samples targeted.
- Table 2-5. Adult resident fish collection field and laboratory data - smallmouth bass and brown bullhead.
- Table 2-6. Resident fish collection field and laboratory data - young-of-year spottail shiner.
- Table 3-1. TSS data collected during 2005 high flow sampling at the Main Street and Alcoa Bridges.
- Table 4-1. Individual samples not meeting QA/QC guidelines.

Figures

- Figure 1-1. Grasse River study area – location map.
- Figure 2-1. 2005 SRS program – water column monitoring locations.
- Figure 2-2. Grasse River flow and precipitation information from 2005.
- Figure 2-3. Method comparison for measuring/estimating Grasse River flows in 2005.
- Figure 2-4. Water temperature and specific conductivity measurements during water column routine monitoring in 2005.
- Figure 2-5. Spatial distribution of TSS concentrations measured during the 2005 SRS Program.
- Figure 2-6. Monthly average PCB concentrations at water column sampling locations in 2005.
- Figure 2-7. Monthly average PCB mass fluxes at water column sampling locations in 2005.

- Figure 2-8. Spatial distribution of total PCBs in water samples collected during the 2005 SRS program.
- Figure 2-9. Average homolog distributions in water samples collected in 2005.
- Figure 2-10. Seasonal average water column PCB concentrations measured during non-stratified periods.
- Figure 2-11. Seasonal average water column PCB mass fluxes measured during non-stratified periods.
- Figure 2-12. Adult smallmouth bass sample collection locations.
- Figure 2-13. Adult brown bullhead sample collection locations.
- Figure 2-14. Young-of-year spottail shiner sample collection locations.
- Figure 2-15. Average Aroclor-based PCB concentrations in fish collected in Fall 2005.
- Figure 2-16. Average Aroclor-based PCB levels in smallmouth bass (1991-2005).
- Figure 2-17. Average Aroclor-based PCB levels in smallmouth bass from the Power Canal.
- Figure 2-18. Average Aroclor-based PCB levels in brown bullhead (1991-2005).
- Figure 2-19. Average Aroclor-based PCB levels in young-of-year spottail shiner (1998-2005).
-
- Figure 3-1. Water column sampling locations in March/April 2005 (TSS Sampling).
- Figure 3-2. Stage height, flow, and total suspended solids from March 31 – April 4, 2005.
- Figure 3-3. Water column TSS concentrations versus stage height (March 31 – April 3, 2005).
- Figure 3-4. Solids concentrations measured at the Main Street Bridge/WC001 as a function of river flow.
